The Kohler® Advantage

- **The Smart Choice**
  Known for its reliability, the Kohler 12 kW generator has been ranked highest for value in leading consumer publications.

- **Powerful**
  Exclusive Powerboost™ technology allows the Kohler 12 kW generator to start and run a typical 4 ton (48,000 BTU) central air conditioner, while still running other home appliances and electronics. *

- **Clean Power for Sensitive Electronics**
  Protects sophisticated electronics with clean, stable power that exceeds strict utility requirements and IEEE standards for total harmonic distortion (THD).

- **Fast Response**
  Kohler generator sets restore power in as little as 10 seconds.

- **Quiet Operation**
  Kohler residential generators provide quiet, neighborhood-friendly performance.

- **Premium Five-Year or 2000 Hour Limited Warranty**

**Model: 12RES**

LPG/Natural Gas

### Standard Features

- **ADC-RES Advanced Digital Control**
  - Designed for today’s most sophisticated electronics
  - Electronic speed control responds quickly to varying household demand
  - Digital voltage regulation protects your sensitive electronics from harmonic distortion and unstable power quality
  - LED display shows system status and setup information

- **Engine Features**
  - Kohler Command PRO® OHV engine with hydraulic valve lifters for reliable performance without routine valve adjustment or lengthy break-in requirements
  - Digital Spark Advance Ignition (DSAI) optimizes engine performance for natural gas and LPG fuels
  - Simple field conversion between natural gas and LPG fuels while maintaining emission certification

- **Designed for Easy Installation**
  - Polymer base eliminates the need for a concrete mounting pad, reducing installation time and cost
  - Fuel and electrical connections through the enclosure wall eliminate the need for stub-ups through the bottom
  - Load connection terminal block allows easy field wiring
  - Designed for outdoor installation only

- **Certifications**
  - Meets emission regulations for U.S. Environmental Protection Agency (EPA) with both natural gas and LPG. Note: CARB does not regulate emergency standby generators outputting less than 50 HP. Only the EPA standards apply.
  - UL 2200/cUL listed (60 Hz models)
  - CSA certification available (60 Hz models)
  - Accepted by the Massachusetts Board of Registration of Plumbers and Gas Fitters

- **Warranty**
  - 5-year/2000 hour limited warranty for on-grid (standby) applications in locations served by a reliable utility source
  - 18 month/1000 hour limited warranty for off-grid (non-standby) applications

**RATINGS:** Standby ratings apply to installations served by a reliable utility source. All single-phase units are rated at 1.0 power factor. The standby rating is applicable to variable loads with an average load factor of 80% for the duration of the power outage. No overload capacity is specified at this rating. Ratings are in accordance with ISO-3046/1, BS5614, AS2789, and DIN 6271. GENERAL GUIDELINES FOR DERATING: ALTITUDE: Derate 4% per 305 m (1000 ft) elevation above 153 m (500 ft). TEMPERATURE: Derate 1.5% per 5.5 °C (10 °F) temperature increase above 16 °C (60 °F). Availability is subject to change without notice. The generator set manufacturer reserves the right to change the design or specifications without notice and without any obligation or liability whatsoever. Contact your local Kohler Co. generator distributor for availability.

* Check the appliance manufacturer’s specifications for actual power requirements. Consult a Kohler® Power Systems professional to calculate your exact residential power system requirements.

Max. engine power at rated rpm, kW (HP)

- **LPG**: 17.6 (23.6) 15.8 (21.2)
- **Natural gas**: 15.3 (20.5) 13.8 (18.5)

Cylinder head material: Aluminum

Valve material: Steel/Stellite®

Piston type and material: Aluminum Alloy

Crankshaft material: Heat Treated, Ductile Iron

Governor: type Electronic

Frequency regulation, no load to full load: Isochronous

Frequency regulation, steady state: ±0.5%

Air cleaner type: Dry

#### Engine Electrical

**Engine Electrical System**

- Ignition system: Electronic, DSAM
- Starter motor rated voltage (DC): 12
- Battery charger, ampere rating: 6
- Battery (purchased separately):
  - Ground: Negative
  - Volts (DC): 12
  - Battery quantity: 1
  - Recommended cold cranking amps (CCA) rating for -18°C (0°F): 525
  - BCI group size: 26

#### Exhaust

#### LPG Conversion Factors

- 8.58 ft³ = 1 lb.
- 0.535 m³ = 1 kg
- 36.39 ft³ = 1 gal.

**Nominal fuel rating:**

- Natural gas: 37 MJ/m³ (1000 Btu/ft³)
- LPG: 93 MJ/m³ (2500 Btu/ft³)
Alternator

Alternator Features

- Compliance with NEMA, IEEE, and ANSI standards for temperature rise
- Self-ventilated and drip-proof construction
- Windings are vacuum-impregnated with epoxy varnish for dependability and long life
- Superior voltage waveform and minimum harmonic distortion from skewed alternator construction
- Digital voltage regulator with ±1.5% no-load to full-load RMS regulation
- Rotating-field alternator with static exciter for excellent load response
- Skewed generator construction produces a smooth AC waveform

Sound Data

Model 12RES 8 point logarithmic average sound level is 65 dBA.

For comparison to competitor ratings, the lowest point sound level is 63 dBA.*

All sound levels are measured at 7 meters (23 ft.) with no load.

* Lowest of 8 points measured around the generator. Sound levels at other points around generator may vary depending on installation parameters.

ADC-RES Controller

Controller Features

- Membrane keypad:
  - Arrow keys step through generator set status displays
  - Password-protected access to system configuration and adjustment menus
  - System voltage/frequency selection and engine configuration
  - Voltage, gain, and engine speed adjustment
- LED display:
  - Engine runtime, hours
  - Output voltage, VAC
  - Output frequency, Hz
  - Battery voltage, VDC
  - Crank cycle status
  - Setup information
  - Software version
  - Faults
- Faults displayed:
  - High battery voltage
  - High engine temperature
  - Low battery voltage
  - Low oil pressure
  - Overcrank
  - Overfrequency
  - Overspeed
  - Overvoltage
  - Undervoltage
  - Undervoltage
- Compact controller integrally mounted to the generator set
- Remote two-wire start/stop capability
- Digital isochronous governor to maintain steady-state speed at all loads
- Digital voltage regulation: ±1.5% RMS no-load to full-load
- Automatic start with programmed cranking cycle
- Field-upgradeable application software
- Front-access DB9 connector for software upgrade on the junction box
- Generator set master switch (Run/Off-Reset/Auto) on the junction box
Standard Features

- ADC-RES Advanced Digital Control
- Battery cables
- 6-amp battery charger
- EPA-certified fuel system
- Critical silencer
- Field-connection terminal block
- Premium 5-year/2000 hour limited warranty for standby (on-grid) applications
- 18-month/1000 hour limited warranty for non-standby (off-grid) applications
- Fuel solenoid valve and secondary regulator
- Integral vibration isolation
- Line circuit breaker, 50 amps
- Field-convertible fuel system, LPG/natural gas
- Oil drain extension with shutoff valve
- Polymer base
- Rodent-resistant construction
- Sound-deadening, flame-retardant foam per UL 94, class HF-1
- Sound enclosure, quiet 65 dB(A) operation

Available Accessories

- UL listed
- 100, 200, or 400 amps
- 200 amp service entrance-rated model also available
- 240 VAC/60 Hz or 220 VAC/50 Hz
- Available with or without built-in load center
- Equipped with MPAC™ 500 microprocessor-based controls
- User-friendly controller interface with easy-to-read international symbols

See the RDT specification sheet for more information.

Dimensions and Weights

Overall Size, L x W x H: 1123 x 726 x 803 mm (44.2 x 28.6 x 31.6 in.)

Weight: 182 kg (400 lb.)
Shipping weight: 195 kg (430 lb.)
